

# Telling Time in English!

BY: Aspen Sensei

# General Rules

## How To:

1

If the big hand is at twelve (12), it is (small hand #) "o'clock".

2

If the big hand is at three (3) or nine (9) it is either "quarter after" (small hand #) or "quarter to" (next small hand #).

3

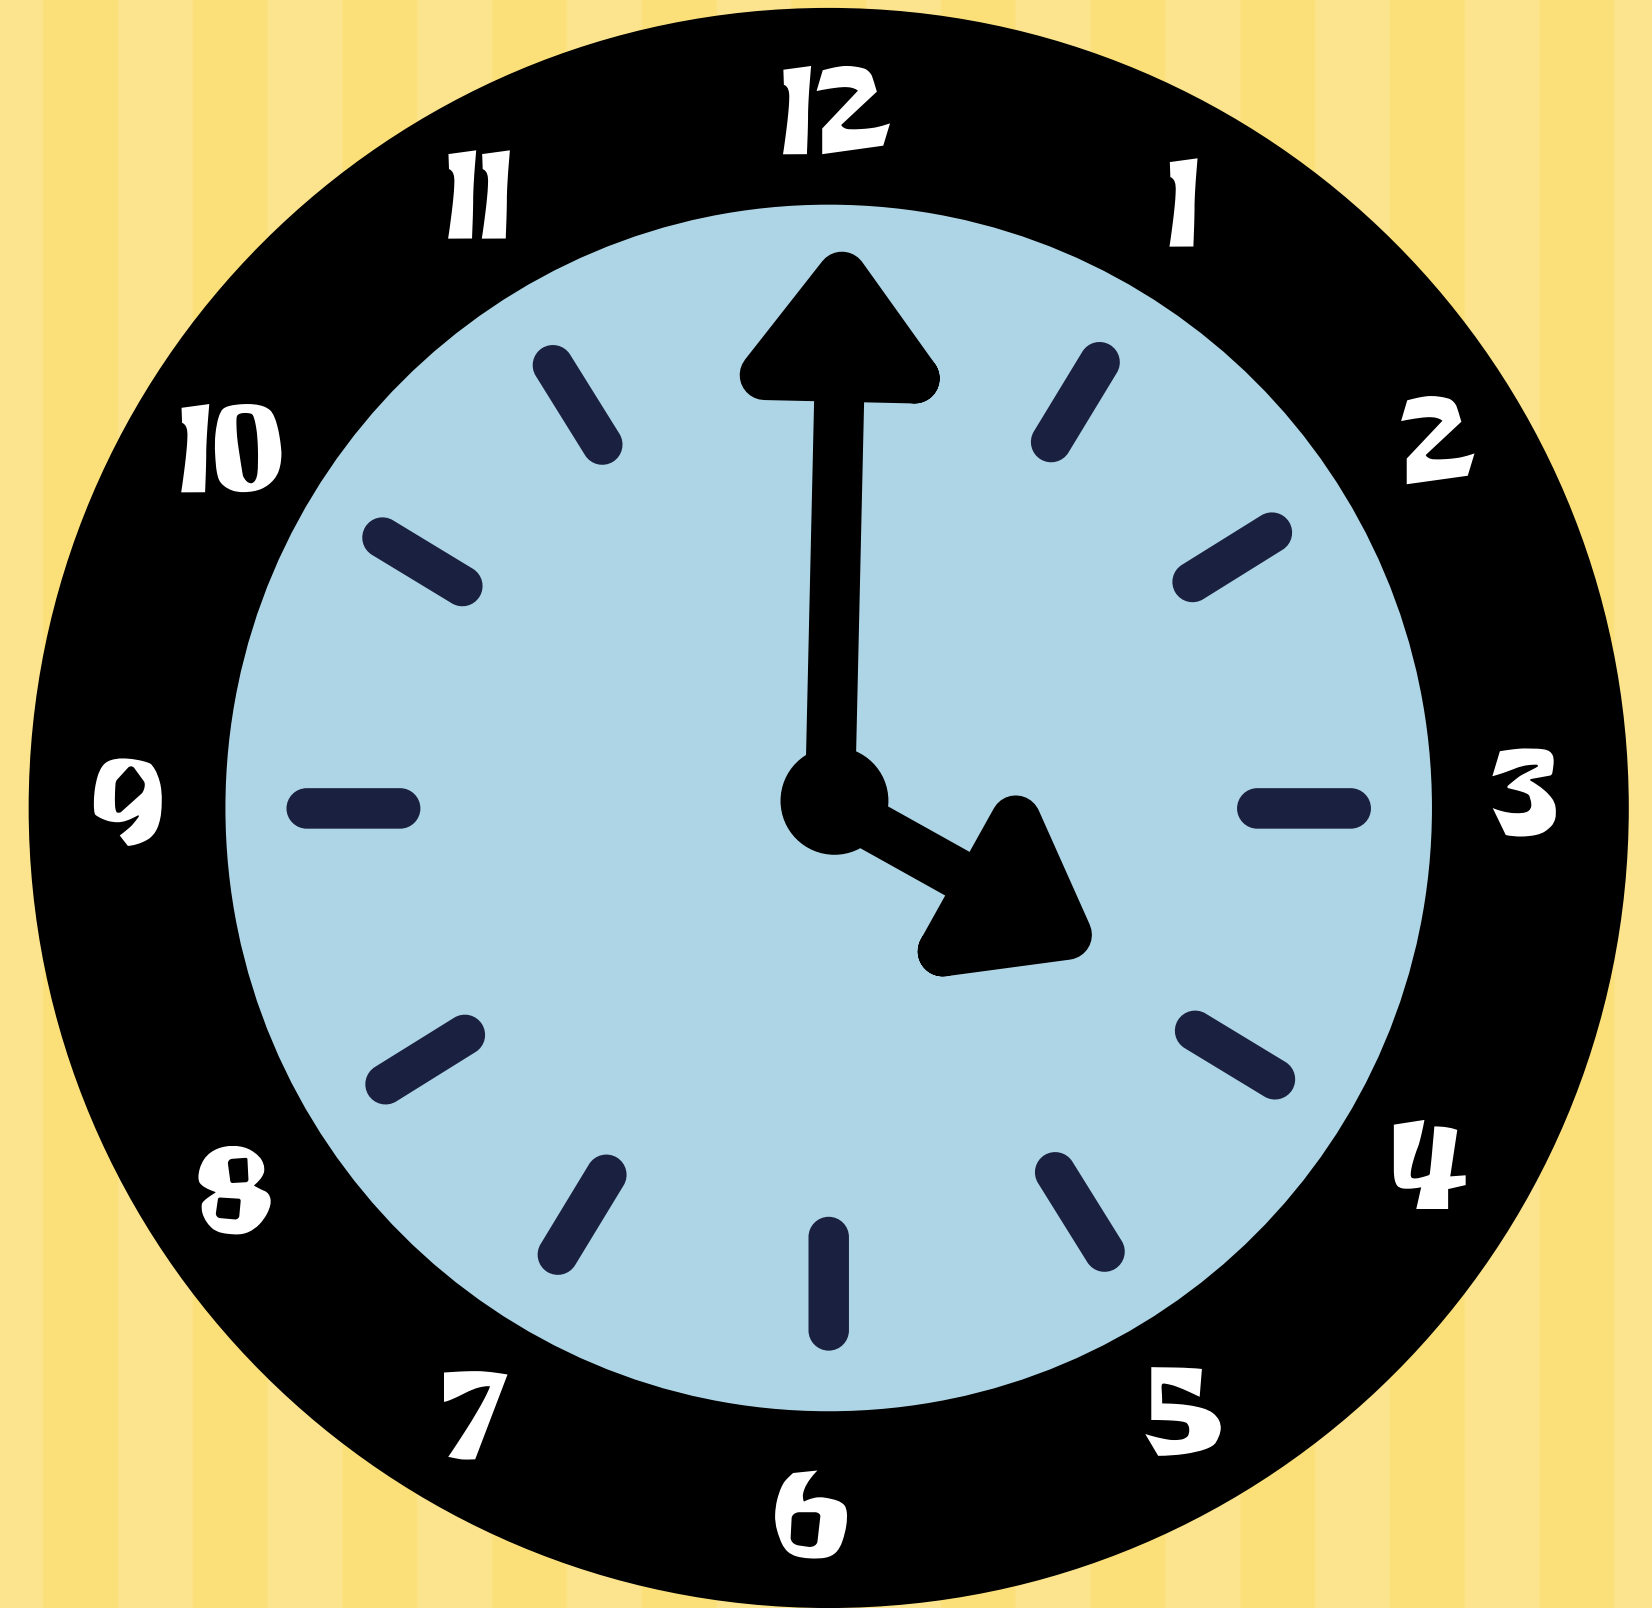

If the big hand is at six (6), you can say either "half past" (small hand #) or (small hand #) thirty (30)

4

If the big hand is on any other number, you just say the number it represents. (Ex: Big hand on 7 means 35 minutes)

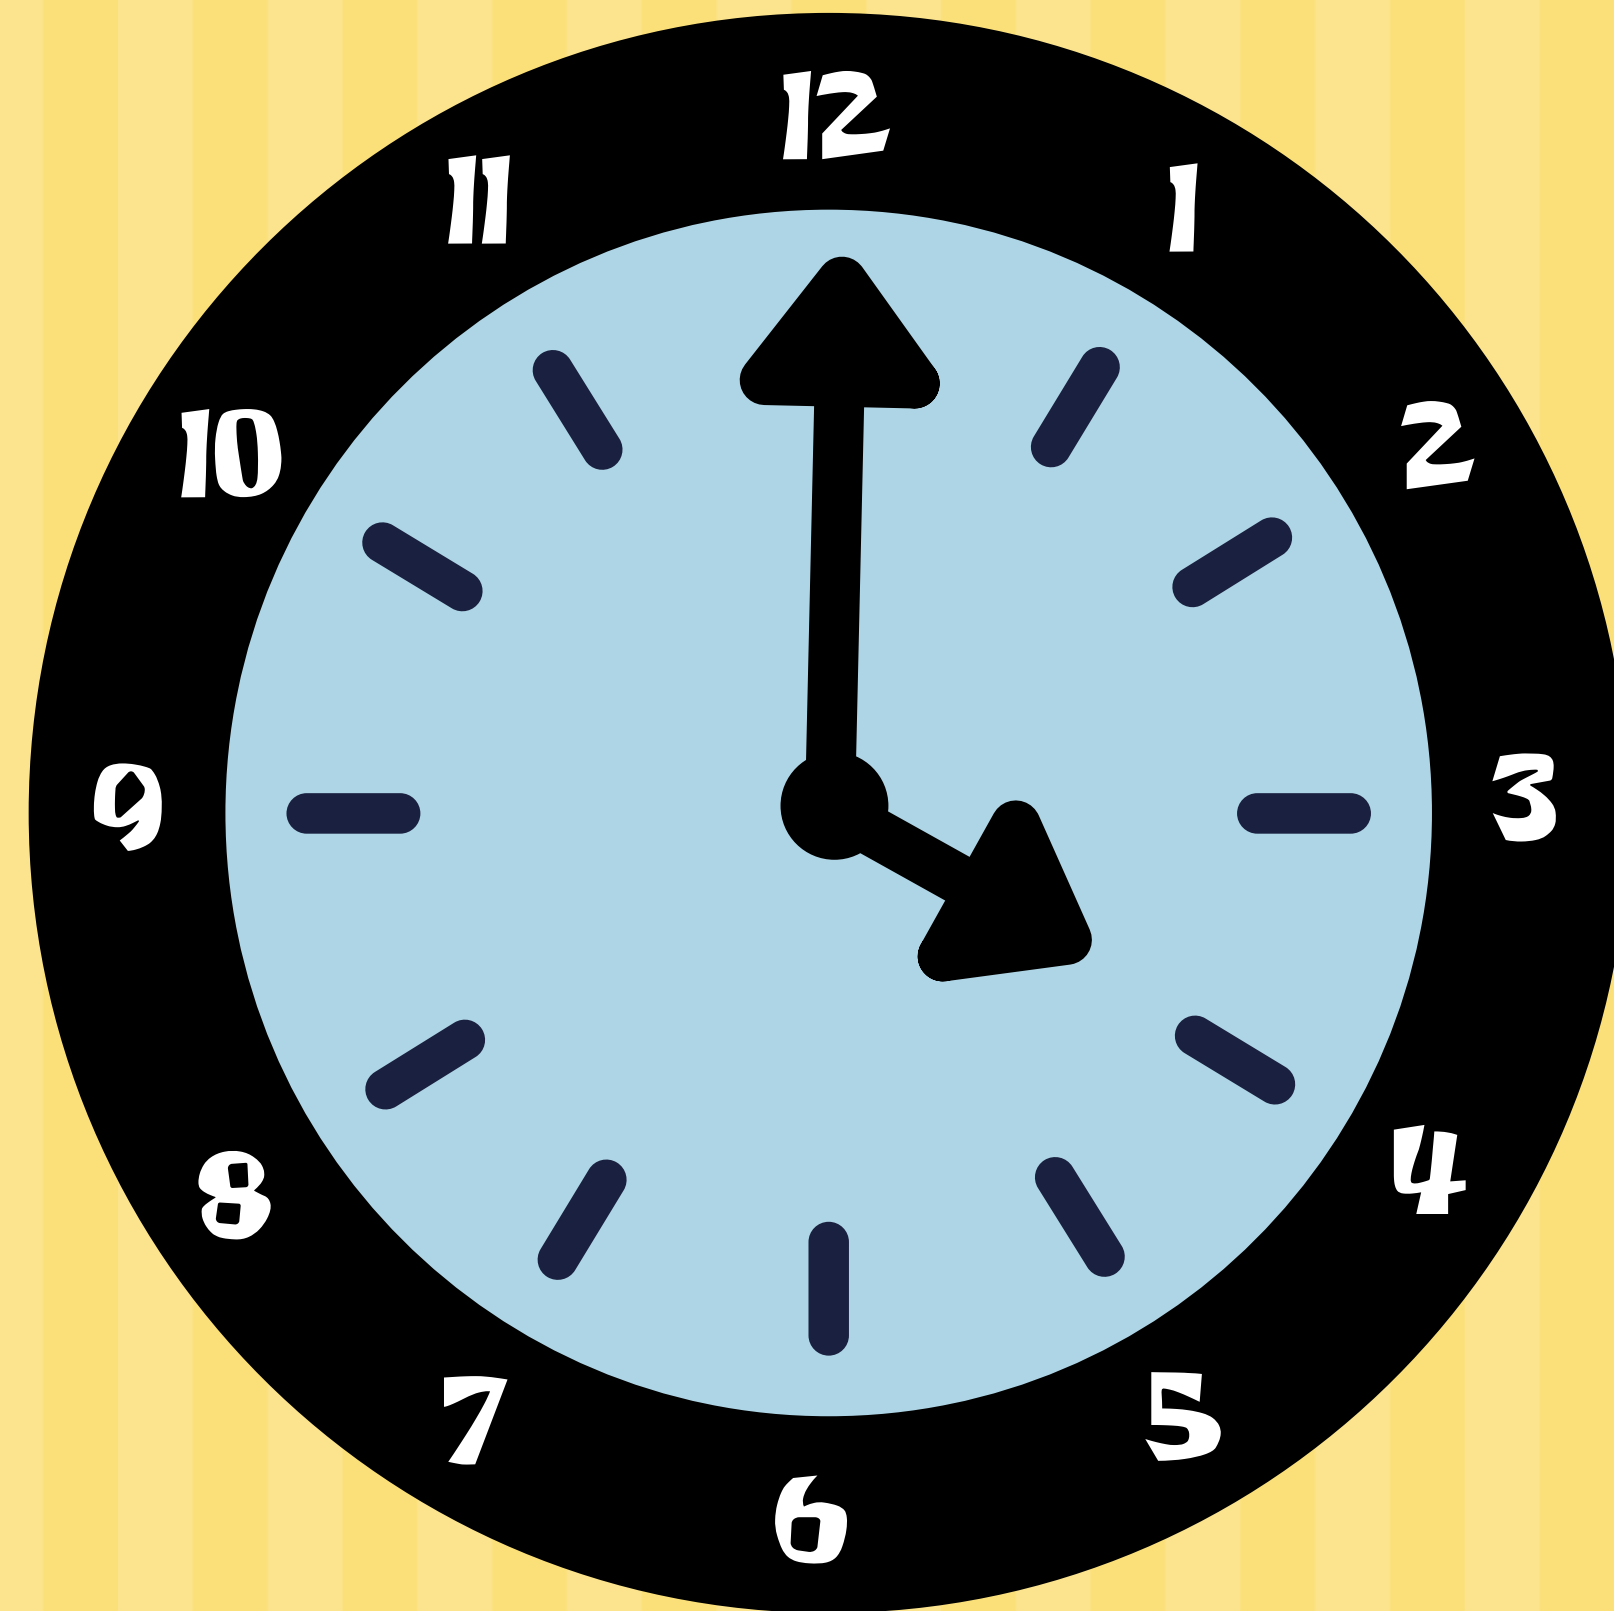

**What time is it?**

- a. Quarter to four
- b. Four o'clock
- c. Four Thirty-five

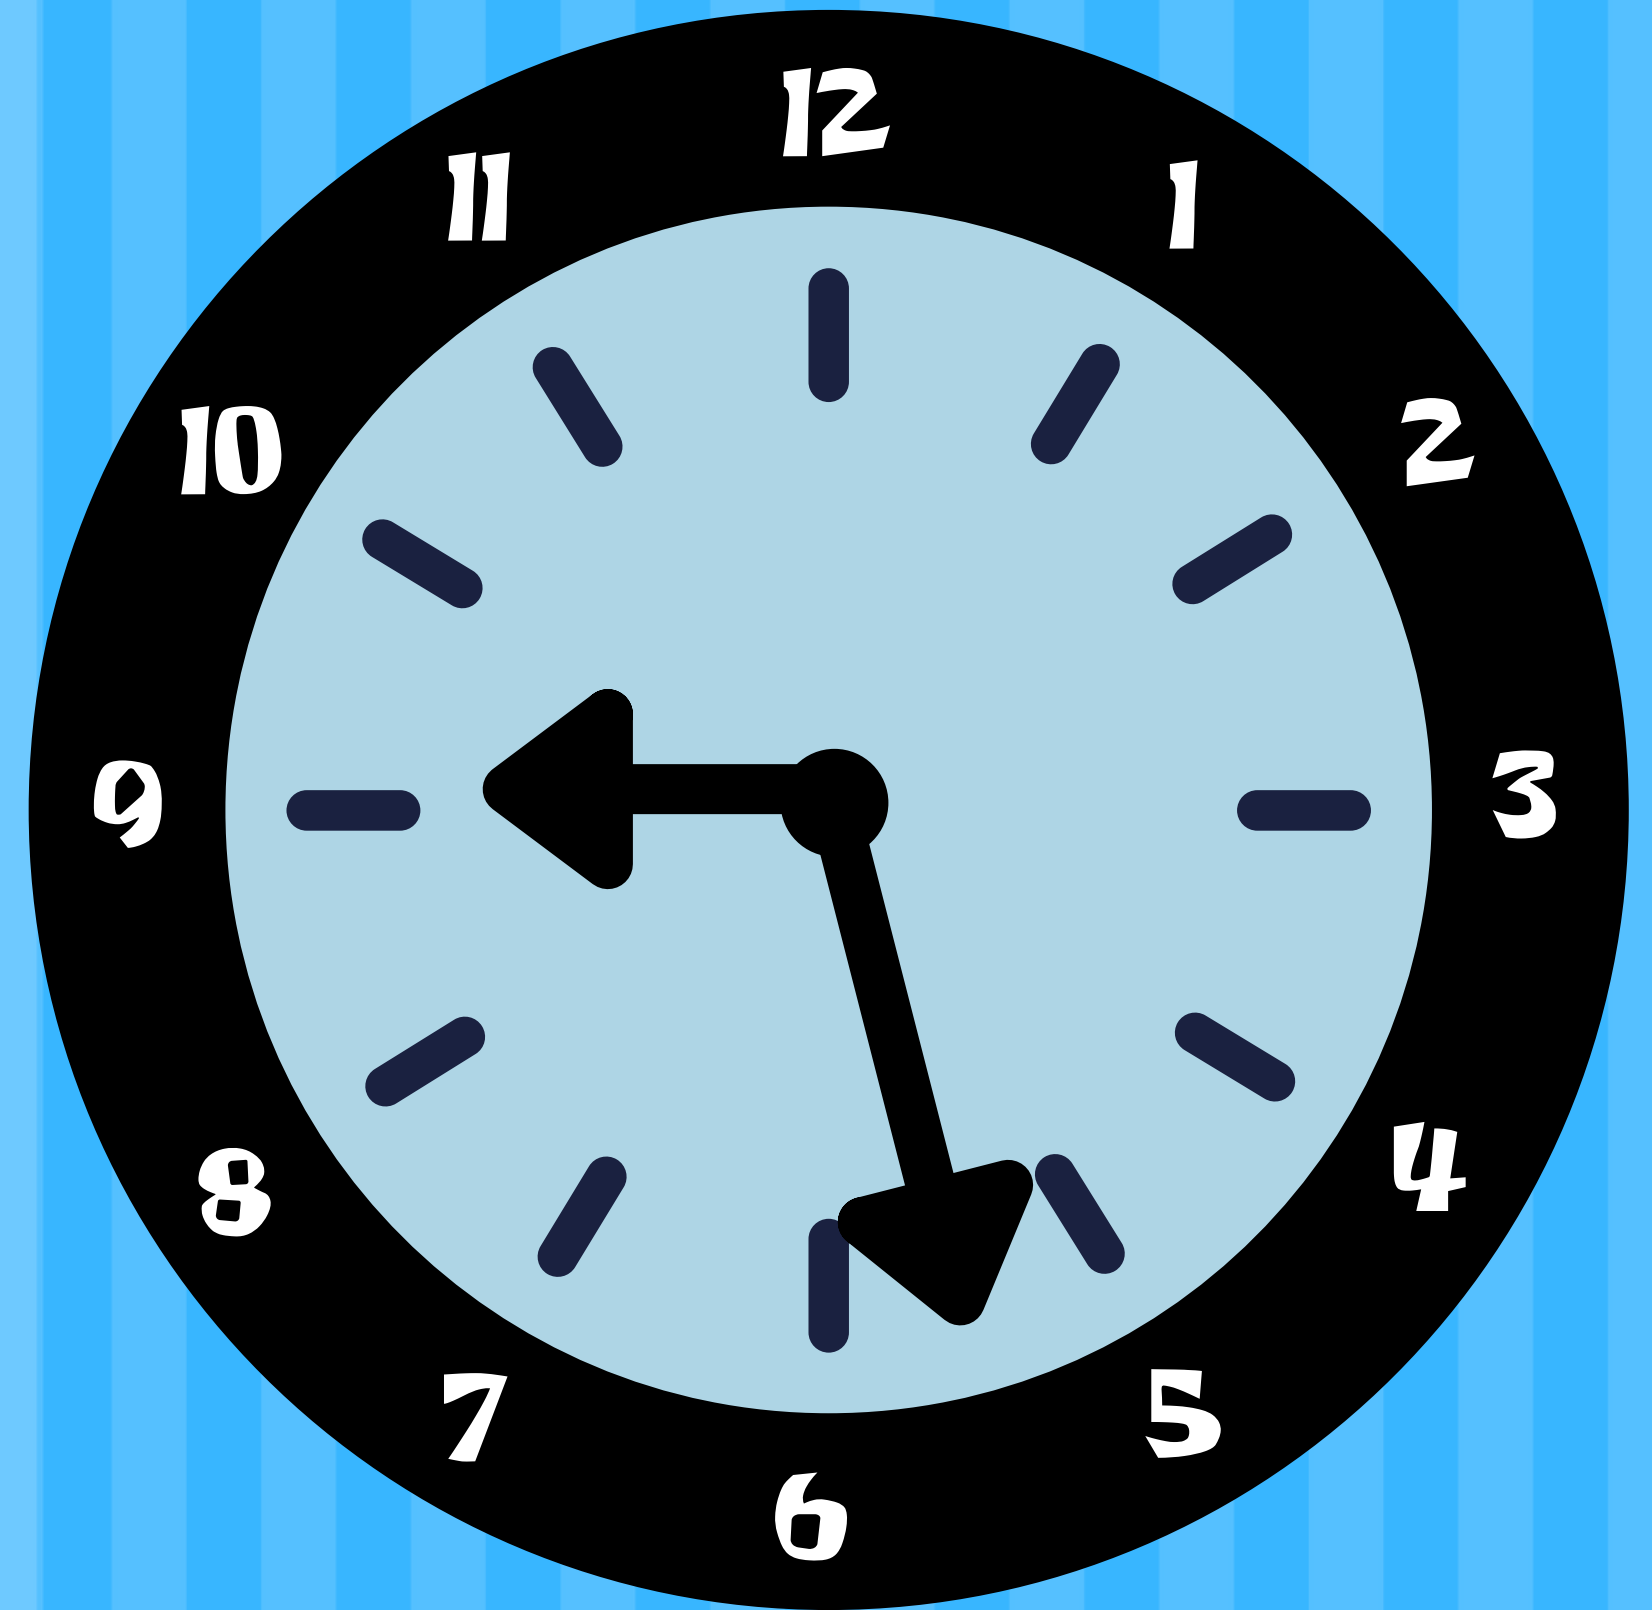

The answer is:

**Four o'clock**

**What time is it?**
